

PROJECT SCOPE STATEMENT	
Project Name	ShroomBase
Project Deliverables	Detailed Description
Intractable Interface	Interface that allows the user to select a Mushroom from the side bar, and see updated information on the side
Displays Facts	Display of facts and information about a mushroom (poisonous or non-poisonous)
Display Locations	Display of common location and growth conditions of the mushroom
First Aid	Displays what first aid to perform to give guidance in case a poisonous or deadly mushroom was consumed
Log-in feature	To allow the user to be able to pin or favourite mushrooms for quick and easy access to them later.
Project Exclusions	
<p>Other Edible resources in the wild will be excluded to instead focus on only mushrooms.</p> <p>This solution will not work offline.</p> <p>All data capture is not possible, mushrooms will not contain all possible information on them we will have to choose the most relevant / important information.</p> <p>We will only focus on types that are found in the wild, this will not encompass mushroom types that are extinct or extremely rare.</p>
